SUMMARY

Full Stack Developer and QA Engineer with a BS in Computer Science from Xavier University – Ateneo de Cagayan. Completed a three-month internship at Fligno Software Philippines covering QA automation (Cypress, Cucumber), frontend (React, Vite, Tailwind CSS), and backend (Hono.js, Prisma, Better Auth). Led a team to build and deploy a tourism website for a municipal government (Node.js, Express, MongoDB). Department Head at Xavier's CS organization, experience in coordinating large events and cross-functional teams

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Python (scripting), Java

Frontend: React, Vite, Tailwind CSS, Bootstrap, EJS, React Hook Form, Zod

Backend: Node.js, Express.js, Hono.js, Prisma, Better Auth

Database: MongoDB

Testing/QA: Cypress, Cucumber (BDD), end-to-end test automation

Tools/Deployment: Git, GitHub, GitLab, Vercel, Render

Languages Spoken: English, Filipino, Cebuano

WORK EXPERIENCE

Fligno Software Philippines, Inc. **Cagayan de Oro City, Philippines**

OJT Intern – Frontend Developer and QA Engineer *August 2025 – November 2025*

- Built frontend interfaces using JavaScript, TypeScript, React, Vite, and Tailwind CSS within a cross-functional intern team
- Developed backend services using Hono.js, Prisma, and Better Auth, contributing to API development and database operations
- Wrote automated end-to-end and behavior-driven test suites using Cypress and Cucumber to catch regressions before release
- Collaborated closely with supervisors and fellow interns through a structured development and mentorship workflow

PROJECTS

LGU Malitbog Tourism Website

Project Manager & Full Stack Developer

- Led a development team through planning, task delegation, and technical implementation of a full-stack tourism platform for the Municipality of Malitbog
- Built core features including an events/attractions listing, public feedback forms, and an admin dashboard with full CRUD capabilities, using Node.js, Express.js, EJS, and MongoDB
- Deployed the platform on Render for public access

Joblyst – Job Application Tracker

Full Stack Developer

- Developed a responsive job application tracker to help job seekers organize and monitor their application pipeline, featuring full CRUD functionality, search/filter/sort, and dashboard analytics
- Implemented status tracking, pagination, and form validation using React, TypeScript, React Hook Form, and Zod
- Designed a fully responsive, accessible interface with desktop and mobile card layouts, persisting data via browser Local Storage
- Deployed on Vercel – Live Demo: https://joblyst-xi.vercel.app/

EDUCATION

Xavier University – Ateneo de Cagayan **Cagayan de Oro City, Philippines**

Bachelor of Science in Computer Science *August 2022 – June 2026*

- Dean's Lister: 1st Year and 4th Year (both semesters each)
- Department Head, Office of Events and Management - Xavier Computer Enthusiasts' League (XCEL)
- Member, Google Developer Groups on Campus – Xavier Ateneo

LEADERSHIP EXPERIENCE

Xavier Computer Enthusiasts' League (XCEL)

Department Head – Office of Events and Management (OEM)

- Planned, coordinated, and executed large-scale and internal organizational events, including leading the Basic Orientation Leadership Training Session (BOLTS) 2025 as Association Head
- Represented the organization in external meetings, building relationships with sponsors and potential partners
